NOTES OF THE WEEK. H. B. Mujesty's gunboat Peterel will be due

from Nilbau in a day or two. The mail steamer from the South bound to

San Francisco may be looked for on Friday or Brig J. B. Ford is considered fully due from San Francisco, though no report of her arrival there has yet reached us.

The band gave a moonlight concert last evening on Emma Square. It was a charming night and the echoes of Berger's instrumental music drew crowd to the park, which seemed like fairy land. The masic was exceptionally fine, the attendance very large, and the concert a grand success. A glorious rain, measuring one and 7-10ths.

nches, fell on Sunday afternoon, giving the country a good spaking. Those who have land should not fail to plant and scatter seeds of shade or fruit trees. A few years will repay the labor spent. Among the prizes for the 16th we notice a very fine Kalakana hat presented by Mr. Morphy of

44 Fort Street, to be swarded to the lucky man who succeeds in walking to the end of a pole which will project out over the water a few feet. Don't 137 Mrs C. J. Murphy, artist in hair and wax work, will open her classes on Monday next.

Those who desire to be instructed in these really beautiful arts, should make early application, as the closses which are limited to a certain number of pu-pils, are now nearly full. The fine residence of Chief Justice Allen, in

Nananu Valley, has been sold during the past week for \$6,250. The purchaser is reported to be Capt. Cavarly, of San Francisco. This is one of the love-liest apois in Honolulu, the dwelling is nearly new, and the grounds are in good order. CHANGE OF TIME TABLE .- The trip of the Kilon

ca, advertised for Nov. 25, to Nawfiiwili, Kanai, is withdrawn from the time table, as the renairs, will equire the steamer to remain in port all that week. These occasional changes from the advertised sched-ule cannot be avoided, now that the vessel is re-quiring more work to keep her in service. Whether it be in anticipation of reciprocity

or not, one thing is certain-that prices of many desirablegoods are lower than formerly. The proprietors of the "Fort Street Store" assure us that it pays to sell-cheap, and they latend to patroulze the simble sixpence fusted of the slow shilling. See their adver-tisoment in another column. ABOUT SHEEP,-The Sacramentle Unon of Sep.

tember 18 contains a valuable article on Sheep and the best mode of improving breeds. As it is too lengthy for insertion in our paper, we simply call ttention to it. The same periodical is publishing a series of asticles on the cultivation and curing of tobacco, which is becoming a stapic production of California.

Mr. Adams holds his regular sale of general merchandise to-morrow, and on Friday next will sell household furniture at the residence of P. C. Jones jr., Nunann Avenue. -Mr. Bartow has removed his Salesroom to the

premises recently occupied by Messes F. T. Leneban & Co., and will hold his first regular sale there this The steamer Collina, bringing the first London mall under the new contract with the Pacific Mail Company, left San Francisco on Mon the first became had a from Handel. Curpe: 7 day, and will be due here at 8 r. m. on Tuesday

> THE HAWAHAN GUIDE BOOK.—This invaluable band book has now added to its pages the San Prancisco advertisements received, Including the official time table of the Mail Company, which was prepared expressly for it. The favor which this little volume has everywhere received, shows that it is destined to be very popular with the traveling public. For mailing to the United States, England or Europe, no more complete epitome of Hawaiian facts and figures, scenes and scenery, can be select-ed, and at a trifling cost.

THE SCOURGE OF THE GRAPHVINE,-A greater scourge to the grapevine probably never made its appearance than the little insect known as the phyloxers. In France and Germany it is laying waste been found to stop or even check, to any extent, its ravages. Up to this time California has been exempt from this pest to her great wine interest, but from present indications this exemption is at an end.—Cal. paper.

e transferred on Sanday afternoon, Nov. 21, from the Royal mansolcum in Nunanu to the beautiful tomb lately erected in Kawaiaban churchyard. It is reported that Mr. Kanaina intends to procure a chimof belie to be placed in the tower of this church. which are to be rung on every anniversary of the death of his royal son. The idea of thus commem orating the name of the deceased prince and King shows such a tender love on the part of this noble chief, now the only remaining link of the days of Kamehameha I., and is withat so patriotic and appropriate, that we hope it will be carried out.

The various committees are hard at work perfecting the arrangements to make the party a complete success in every particular, as it doubtless will be.

SKEDAUDLED,-Mr. E. Asegut Packen of Koha la, Hawaii, was some three months ago arrested, the Tot passage Oct II, with this weather. First of the worker gain Sth Aug in the worker was good and whales a marked at Hambula New 4th, 12 days from hand to appealed to the Supreme Court. While lodged in prison awalting trial in the upper Court, he in the court of the supremental at the supreme tried and convicted for stealing cattle, from which be appealed to the Supreme Court. While lodged duced several prominent natives to become his bail for the amount demanded \$2300. It is said that he offered them one bundred dollars each, if they would stand as his bondsmen, which had the de sired effect, and he was released. A day or two after, he was seen in the street, and last week the Ad ea for Hawaii, to stand his trial. But this turns out a felse report, and it is thought that he left in the Ciara Bell, or in one of the mail steamers for foreign parts, perhaps for Germany, where it is said he is wanted to take possession of an estate valued at \$20,500, to which he is the sole heir. Be this as it may, his bondsmen will have to forfeit the amount of the bond—a severe but salutary lesson.

A WONDERFUL COLLECTION FOR THE CENTENNIAL Exhibition.—A representative of the Bulletin was admitted to the rooms of the Central Pacific building on Townsend st. Sept. 21st, where the soperh collec-lections of Pacific coast specimens for exhibition at Philadelphia are being stored away and classified. The exhibition will be made under the immediate auti-pices of the company, although an urgent appeal has been received from the Smithsonian Institute asking that the neighbor of making the disclass he exacted that the privilege of making the display be granted to that management. For the past eighteen months the land department of the corporation has been in dustriously seeking out and gathering together the finest mineral, cereal, ornithological and soological collection ever secured on this coast. Besides this tile exhibit will embrace—in fact, already embraces—some of the largest collections of marine, land and fresh water shells ever known. Moreover, specimens of all the coals of the Panific region have been secured. They represent fully one hundred different grades, from the finest Shasta to the communest slate mixed stone. The timber of the coast is represented by specimens, green, polished and petrified. There are also cuts from old monarchs of the forest, whereon approximate estimates of the rainfall for two es past are made in the rings which indicate the yearly growth. It would require the space of an ordinary volume to mention the full list of specimens embraced volume to mention the full list of specimens embtaced in this collection, for they represent brids of every planage, animals of every species, together with curious alkaline formations, marble polished and rough, sand-stone pummice, honey-combed lava, light enough to float, fossilized fish, borings from artesian wells, curi-rious relics of armor breastplates, forsil reptiles, ento-mological specimens, etc. In the line of cereals the tallest corn stalks and the heaviest sheaves of baring and wheat, together with thrashed grain in properly labeled buttles, are fitly represented. The labor of gathering together the necessary specimens is not ye ompleted. The enbinet for the safe keeping of arest and most valuable shells is a model of bean design, and withal, conveniend in its construction. F. Belletin.
